

10.6.29-31

Posted by Slav2 - 2021/10/12 14:08

Name=EVE Pilot 10.6.29

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=35169697

MD5=4b610bf566d8cfedf1c9885c5809be44

New error added when bot cannot activate ship because of missing skills, e.g. when no omega state active

Fixed a bug when bot purchased fit multiple times in case of a problem with ship

BugFixes:

Fixed a problem with eve launcher detection. Report if you cannot complete first run

Updated a font to scan job price and duration
