

New Photon Interface

Posted by Slav2 - 2023/02/14 03:32

Classic interface was removed, bot will not work with new photon interface. I am updating bot (and started update in advance) but this will take quite a lot of time. Not 1-2 days as per usual eve patch.

You will not refund anything while I work on update as well as I don't charge for update those who purchased lifetime licenses.

I don't spend time to answer questions or reading this forum while I work on update.

Please read this post for news and any ETAs.

=====

New Photon Interface

Posted by Slav2 - 2023/02/17 13:19

Uploaded latest beta version. You can use it to complete first run for non traveling trader and start trader if you do not travel (courier interface disabled, remote citadel orders + collector addon disabled). Need to start first run in station.

If you will have problem dont need to report anything yet. We will polish bot later when most of functions will work

EVE Pilot 11.0.7

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36291249

MD5=9e1c83ef68ba98965d9916cceb265e2

First run works

Tested miner (simple setup), courier and trader.

ETA to fix remaining code is 2-3 days

Do not run bot unattended

=====

Re: New Photon Interface

EVE Pilot 11.0.9

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36290737

MD5=69dc9dd4265641ead07bbb44b160740f

This version is not final, abyss hunter not tested yet, fw tested partially (till warpgate)
If 11.0.7 version did not work, try this one.

New Photon Interface

Posted by Slav2 - 2023/02/25 13:32

Name=EVE Pilot 11.0.14

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36294833

MD5=17969ebc012b814e887f7a9ea312b673

Main functions should work. Please report in case of problems.

Not tested: planet interaction, abyss hunter with drones, industry (part of abyss hunter)

If you have problems redo first run. I made repositions of windows to not overlap each other and to not be hovered with messages from eve.

Avoid doing first run in Jita 4-4. Many popups like one player attacking another player hover windows in space and this may affect first run.

New Photon Interface

Posted by Slav2 - 2023/02/26 12:55

EVE Pilot 11.0.15

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36301497

MD5=887469060d0e0f3ca8f7bfa4acc18fe7

Not tested: planet interaction, abyss hunter with drones, industry (part of abyss hunter)

BugFixes:

fleet mode (member)

fw using drones

anomaly hunter should work with persnal bookmarks

launch drones from drone bay

contacts - agent search

first run when drone window hovers - + line

Report about problems fast and tomorrow your problem will be in this list ;)

EVE Pilot 11.0.17

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36311737

MD5=26b1f64afd7ceaeca37c72d4c40388ad

Not tested: abyss hunter with drones (but may work already just had no time to test)

Not tested: industry (part of abyss hunter)

BugFixes:

Planet interaction works with manual extractor setup

Probe scanner setup

Known issues:

asteroid preset autoadjustment on start does not work

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36312249

MD5=a715e53cb32d16313099d1370f02898b

Not tested: industry (part of abyss hunter)

removed not working functional:

- window maximization in autotrader
- autadjusting asteroid preset on miner start

BugFix:

- mining with drones
- traveling function in miner/deliverer
- abyss hunter with drones tested and should work
- dont run abyss hunter unattended with expensive fit yet

EVE Pilot 11.0.32

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36310201

MD5=741cdea2c982d6c1eb1104c401b4d819

Please report in case of problems.

Dont run abyss hunter with drones unattended, need to test new methods to launch drones for stability

BugFixes:

AbyssHunter: probaby fixed bug with drones, but need to test longer

Courier: character sheet

v. 11.0.32

Drones again

=====

Re: New Photon Interface

Posted by Slav2 - 2023/03/12 15:27

EVE Pilot 11.0.36

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36318393

MD5=83b89729c4ce19388b4b2ee20a1f70d2

Please report in case of problems.

Most of changes are "workarounds" and need more logs/info to find source of problems

BugFixes:

Reduced minimal sizes of tooltips to fix selected item window check

Adjusted default position of personal orders while scrolling the list - will monitor longer for results

Warp detection fix

Changed position where bot remove mouse by default

To rollback to previous version take evepilot.exe from archive

=====

Name=EVE Pilot 11.0.38

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36319929

MD5=b8934b6d5b862b7a97b109714b8a95b9

BugFix:

Fixed market exporter to generate new history file for trader

p.s. Updating history data for all 16k items (w/o blueprints) takes ~3 days. I suggest you to use old file and wait while I update built in file for everybody.

=====

Name=EVE Pilot 11.0.50

URL=<https://www.macrolab-online.com/downloads/evepilotsetup.exe>

Size=36461273

MD5=951b5d514c140e73df6087f6420dbdcd

Enhancements:

Updated market history file. More items available for trader

Autotrader will update limiting (max buy and min sell) prices even if item was not selected to trade - faster item search

BugFixes:

Work with assets

Launch drones command from drone bay when drones not stacked

Scrolling overview while looking for faction NPC wrecks

Scrolling market orders did not work properly all the time

NPC cap ship detection bug
