

New Alpha Accounts instant Banned after creation !

Posted by Neurolink - 2023/02/02 06:47

Hi guys.

ive used Evepilot a very long time now with 4 accounts.

After a few days i was banned on 3 of 4 Accounts.

When i create a new Alpha Account and train them i got an instant Bann with an account who is 2 seconds old Oo.

The good news are: it was on VM with an different IP. So i have no trouble on my Main Account.

They do this with Machine Serial BIOS ?

What i have to do now to get an new Alpha running ?

I had this problem 2-3 years ago when i had my mining bot running 24/7 on my botting computer.

Dont know if my HWID was flagged but changing HWID fixed the issues for me at that time.

I tried reinstalling windows, change ip, used vpn etc.

But the only thing that worked for me was using a hwid changer.

hey that is really awesome to hear! it would be very helpful if you could tell us what route you took to change your HWID, was it with a paid spoofing software, if yes, which one?
