

## deliver ore hold supported?

Posted by syn7hetic - 2017/03/22 06:31

---

does the deliver bot support ore hold transports like the " Miasmos " ?

if so do i just enable ore hold in miner settings like if i was using a hulk?

have tryed a fair bit of playing around but cant get bot to use ore hold in deliver mode.  
would be a nice thing to have bu it doesnt seem like many people are attempting to use it.

Were you able to make it work? I coulnt even by swapping the keybinds around to trick the bot into opening the ore bay instead of normal bay.

Was this ever fixed? It would be nice to use ore hold for this when moving ore from station to station.
