Is there a way to have my miners deposit via the cargo deposit;

in lieu of docking up, dragging inventory, etc...

Wanted to do this twice already and every time was scared off by new window setup. When opened it will hover or be under cargohold, when moved down it will hover HP bar, from the right it is close to overview. Window size cannot be reduced. Wanted to ask CCP why they created so big window to drop ore and special button "Transfer" like you need to pay for any cargo dropped here and need to think twice before click on "Transfer". :lol:
