

Merge Anom/Belt hunter into same Algo?

Posted by armyruss79 - 2019/04/27 20:07

Since you added courier bot to the trader algo can you Merge the Anom hunter and the Belt hunter into the same suite? It'll be more efficient for the high sec players as belts and anom's are typically highly contested and or spawn slower I've struggled keeping either of them busy enough to be useful..

I decided to split activities to avoid algo like for a miner:

<http://www.macrolab-online.com/downloads/eveminer.png>

It is really difficult to add features to a mess like this.

Thanks for responding. It is pretty complex. It always seems easier than it really is. Can you set belt hunter to run multiple systems Travel like the miner does? more belts more opportunity?
