если научить бота работать с агентством, то он сможет искать аномальки через него и путешествовать. +1

думаю это можно реализовать использовав функцию из майнера поиска льда по заранее
выбранным системам, но почему-то кажется будет много жалоб и начнутся баны, в каждой
системе будут боты уступать друг другу. Если это и реализовывать этим способом, то добавлять
лимит максимум 3 - 4 системы, иначе будет хаос и палево бота.
