

where to choose the new three presets ?

Posted by Neurolink - 2022/02/06 07:03

Hi guys,
i cant find the new presets from the Update :(

is there any new menu ?

Make sure you've selected "AbyssHunter" on the "Current Client X" screen then open settings. It's a new heading right at the top called "Simple Start". Make sure you update the system if you're not going to use the defaults Slav put in. Once you're done you must redo "First Run".

can plz anybody make me a screenshot where this option are ?
i cant find that. Can it be that i have to do a clean install of Eve Pilot ?

Check in about box your bot version, it should be 10.8.24

If not reinstall bot. Presets are in "simple start" extended panel in abyss hunter settings.

thank you ! ok this is big enough for me. The Version is right but the drop down is not there. I have to reinstall that.

thx again
