Defined System List
Posted by francx - 2020/04/23 05:55

_____

Hi,

Thanks for the bot. Would it be possible to incorporate a defined target systems for plexing or deplexing ?

So if you only want to hit one area, you could ensure the bot stays in those systems ?

Thanks,

==

_____

You are asking to write a function which will reduce the number of available systems for other bot users. Conflict of interests.
