

## After formatting, Eve Online shows a black screen

Послан jackfrost - 06.12.2021 22:53

---

Does anyone know how to solve this?

It would probably be easier if you included your eve logs, macro logs, explained your setup (VM? Native hardware?)

With no other info to go on lets guess its a windows something and doesn't have proper DX support or there's a video driver issue...

Just a hunch...
