

Unable to Purchase from NA

Послан Umokthar - 13.05.2022 08:38

Seriously, this is incredibly difficult to purchase from NA,

Even with CashAdvacne I'm unable to sign-up.

Why can't we just pay via Paypal like we use to be before... or some other platform like skril or something.

this is super infuriating to not be able to pay normally.

Well im in Canada btw, so any US thing doesn't work for me especially if I need to do a verification.

Maybe we can use a reseller or something? or a coinbase/direct btc thingy

Not just sanctions but also anti money laundering law, which prevent financial companies w/o registration in USA deal with USA clients. Many companies leave USA or, if company is big, create child companies for USA only.
