

## Handling Low sec

Послан mightyminer - 05.06.2019 03:14

---

I'm looking at using Courier Bot to increase my standing as I've noticed I'm paying tons of taxes and want to get those broker fees down :)

I've never done courier missions before but are they likely to go through or end up in low sec and if so will the bot avoid these missions?

Bot will avoid low sec missions and should not go to low sec. It may be killed in high sec in triglavian systems although. Thinking how to avoid them.
