

Incorporating Looter

Послан Pronator - 18.07.2023 05:36

Hey Slav,

Any chance you would please humour me and just incorporate looter into FW bot please?

I suggested this a while back but you ridiculed me. Now, I look in the LP stores and keep seeing so many items that would be far cheaper if the bot had collected the hundreds of tags in the hundreds of sites.

Can you please, please just humour me, or explain to me how to use the editor and I will do it myself?

Much love :)

I've loaded up FW bot in algo editor but where how, and where, do I add the looter function?
